

James,
Thanks for all
of your help this
year. I really appreciated
it. You have been a great
friend to me and hopefully
will be in the future.

Dan

Dear Tim,
next year will be super -
we'll be seniors, have parties -
and create real problems for
the teachers. It's been great
working with you this year.
There are two reasons for this:
1) you're a great worker
2) we've become such better friends
See you next year and at
some of our "class" functions.
Have a nice summer
love,
Jail

Jim,
I think we've become much better friends this year. I hope we will become better friends next year, hopefully we will be able to go skiing this winter, maybe we'll see you over the summer, may your bottle never empty.

We have had a fun year
and I hope it can be better
year when we will be big-time
Seniors. Have a good summer
and remember all the fun
times, and take good pictures
this summer... This is your editor
speaking!!! ☺ See you later

See you later
Love,
Innsba

I hear Jim
we had fun
together & I
really glad
because you're
staying with
Bass.
I wish
you'd
ride so
fast
soon
Love
Deanne

Jim,
Have a wonderful
summer - a great
year coming up.

UNDERSTOWN FRENDS 1978

THE CLASS OF 1978

contains a group of strong-willed and unique individuals. Always with one eye focused on the future this class went through the everyday routine of their high school education, constantly thinking of advancement. Moorestown Friends, to them was a stepping stone to better things.

Even though each member had his or her own aspirations for the future, a sense of class unity was ever present. This yearbook is a symbol of this thought; a project that takes as its theme the future — the time where each individual member will have his or her own place. This yearbook is dedicated to the people who will know these individuals years from now. It is our hope that they will look at this project and understand this expression of the Class of 1978.

Twenty-eight years of coaching at M.F.S!

Every year and every team has been worth it. I have no regrets.

There is no doubt the next twenty-eight years will be just as rewarding and just as much fun as the first.

Neil Harman, 26 years

If the energy crisis develops quickly, it could have a cathartic effect on life. It could get us back to appreciating our local environment and to enjoying the simple things of life. It would be nice if we can have enough energy to do the basic jobs of heating and cooking but omit the luxury of an automobile for every person. We can then have empathy with the rest of the world.

Cully Miller, 24 years

We will, and I hope, continue to move in the direction of experimenting with new approaches to education. M.F.S. should become a leading educational institution in the field of experimental type of education which has as its central objective that of enhancing a student's ability to exert influence in public affairs at the community, state, national and world levels of human activities.

In the year 2000, MFS will own land to route 38 which will be our Main Entrance. There will be a new Field House, new Library building, Arts building, but the present buildings will remain.

Alex MacColl, 9 years
Headmaster, Religion and Social Studies

I am convinced the future can be increasingly rewarding and enriching for all of us. To believe otherwise, it seems to me, is to insult the potential of the human family. Though we have the power to destroy, we also possess the genius to create and to build and to improve and to solve far beyond our abilities of even the recent past. And I am confident this trend will continue if we cope effectively with our human tendencies to fear and to hate. It is essential to conserve the best of the present and the past; it is just as essential to believe that in the years ahead we can know still greater satisfaction, joy, and peace.

Donna Goodwin, 6 years

I see the future as a time offering tremendous challenge to the class of 78: A time of expanding population and shrinking resources and space, a time which will call for the best of the creative efforts of humanity in the arts, philosophy and religion to establish the goals; for excellence in teaching, medicine and other areas focusing on the care and nurture of human beings; for exploration in technology to achieve more harmonious existence with the natural world; and for peace making to create a just world for all.

Edwin Dreby, 6 years

We in this country have been living high on the hog for too long. We must find the collective wisdom and will to harmonize our living patterns with the natural order and with the rest of mankind, or circumstances will discordantly and destructively do the job for us.

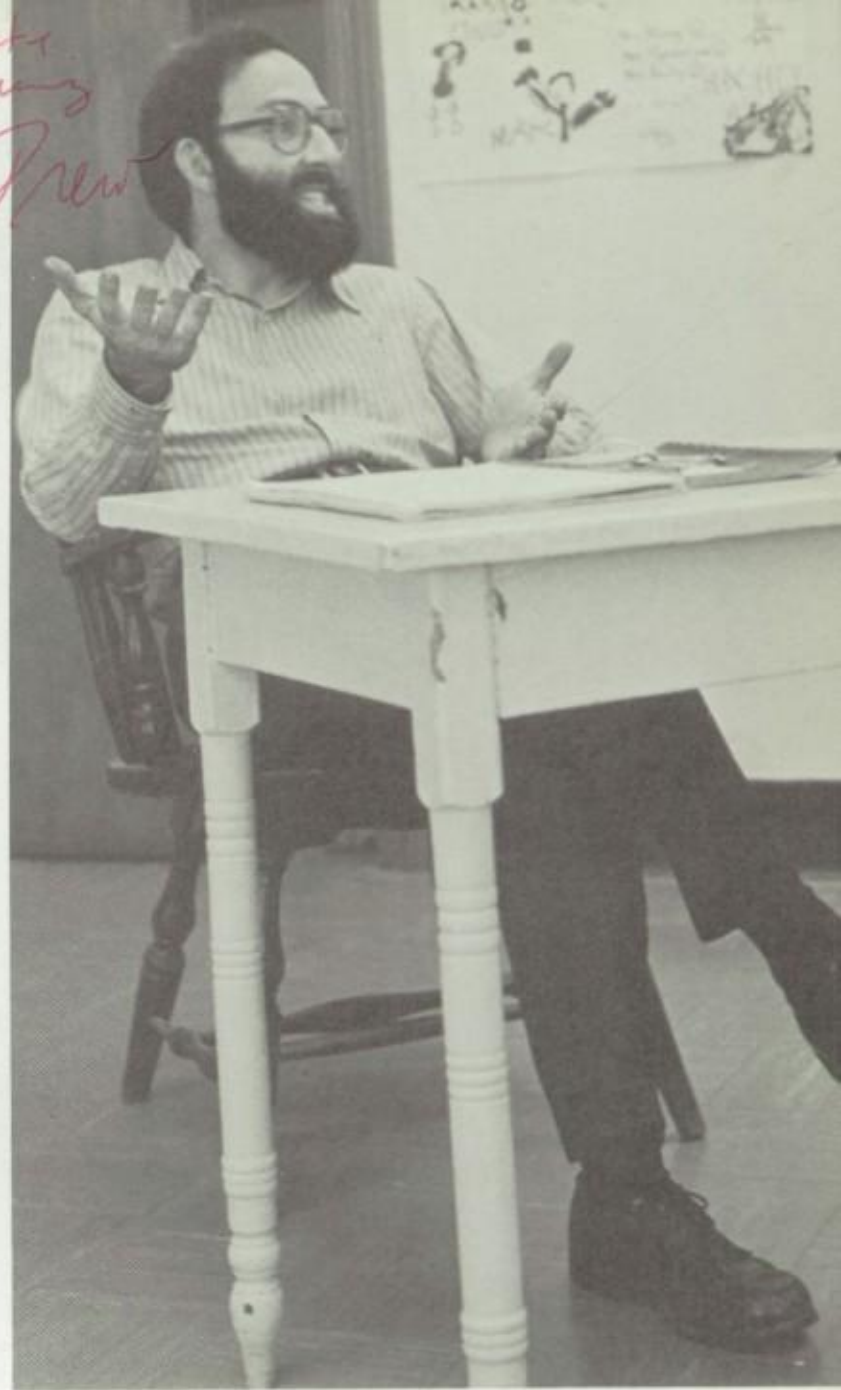

Dudley Heath, 6 years

As the pace of life gets more hectic, western civilization will react by becoming more conservative.

Andrew Nolan, 5 years

I think the athletic program has advanced tremendously for both girls and boys in the 70's at MFS. It is a pleasure being associated with the willing and cooperative athletes at MFS.

Roger Wasby, 5 years
French/Director of College Guidance

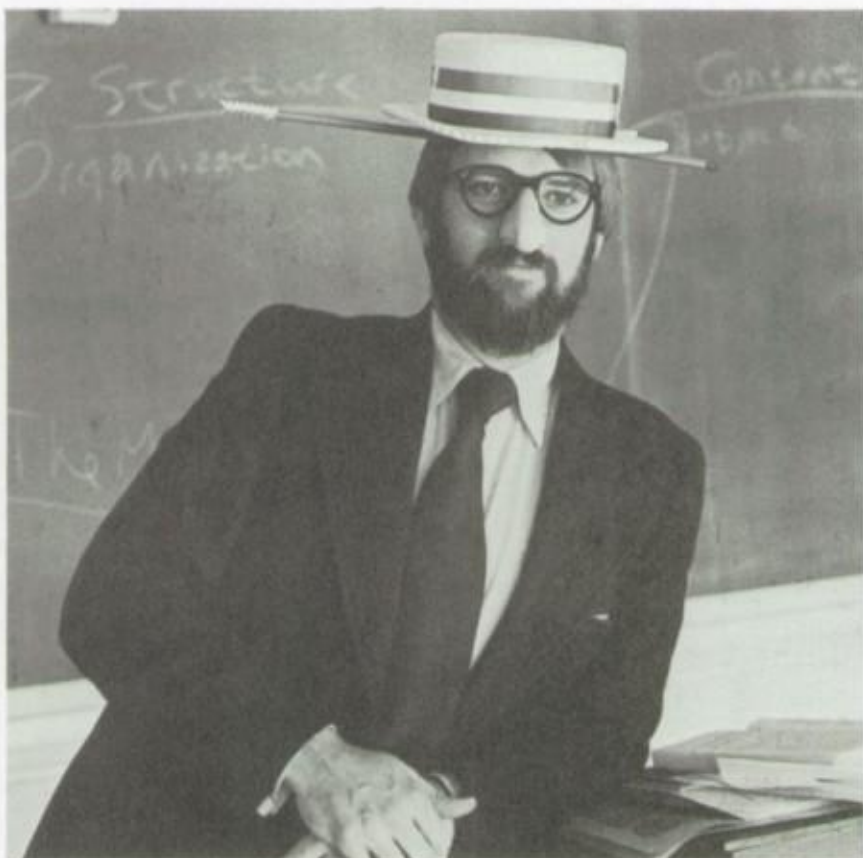

The future — I foresee the class of '78 being forced to cope with the energy crisis as an integral part of life. I foresee many class members assuming leadership roles in their careers. I foresee MFS continuing to thrive as quality education becomes increasingly more critical to the progress of society.

In general, the future is impossible to predict because trends and
conditions can change quickly. But some things do not change and
these can be predicted. Moorestown Friends School is a caring
school; this applies to faculty and students. People will always need
the love and concern someone else can give. I predict that as long as
MFS cares, it will exist and as long as the members of the class of '78
are concerned for others, the life of each caring member of the class
will be successful and happy.

I am struck by the effort it takes to be open to possibilities in the future, the effort to live with and even to enjoy the uncertainties which confront a forward looking person. I like to think that you will leave here with some joy in your memories and an eager anticipation to confront the unknown.

Sometimes . . . the prayer following meditation leads to an inner silence, a stillness in the depths, which is the peace of God, passing all understanding. It cannot be commanded at will for it is the gift of God, a blessing which he gives only to those who can cease from anxious striving and desiring. Portrait (He Knew)

He has a thousand ideas, you might
have heard his name
He lived alone with his vision
Not looking for fortune or fame
Never said too much to speak of
He was off on another plane
The words that he said were a mystery
Nobody's sure he was sane

But he knew, he knew more than
me or you
No one could see his view, Oh where was
he going to?

He was in search of an answer
The nature of what we are
He was trying to do it a new way
He was bright as a star
But nobody understood him
"His numbers are not the way"
He was lost in the deepest enigma
That no one's unraveled today

But he knew, he knew more than
me or you
No one could see his view, Oh where was
he going to?

We had a different idea
A glimpse of the master plan

We could see into the future
The true visionary man
But there's something he never told us
It died when he went away
If only he could have been with us
No telling what he might say

But he knew, he knew more than
me or you
No one could see his view, Oh where
was he going to?
But he knew, You could tell by the
picture he drew
It was totally something new, Oh
where was he going to?

I believe that children are our future. Teach them well and help them lead the way. Show them all the beauty they possess inside. Give them a sense of pride to make life easier. Let the the children's laughter remind us how we used to be.

Everybody's searching for a hero, people need someone to look up to. I never found anyone to fulfill my needs. This is a lonely place to be. So I learned to depend on me. I decided long ago never to walk in anyone's shadow. If I fall, if I succeed at least I will live as I believe, not as a follower, I am a leader, no matter what they take from me they can't take away my dignity. Because the greatest love of all is inside of me. Learning to love yourself is the greatest love of all.

Jr. High Prediction

The Junior High students of Moorestown Friends are a diverse group of individuals. Their importance to the school depends upon their individuality and upon their many characteristics.

What are these traits?

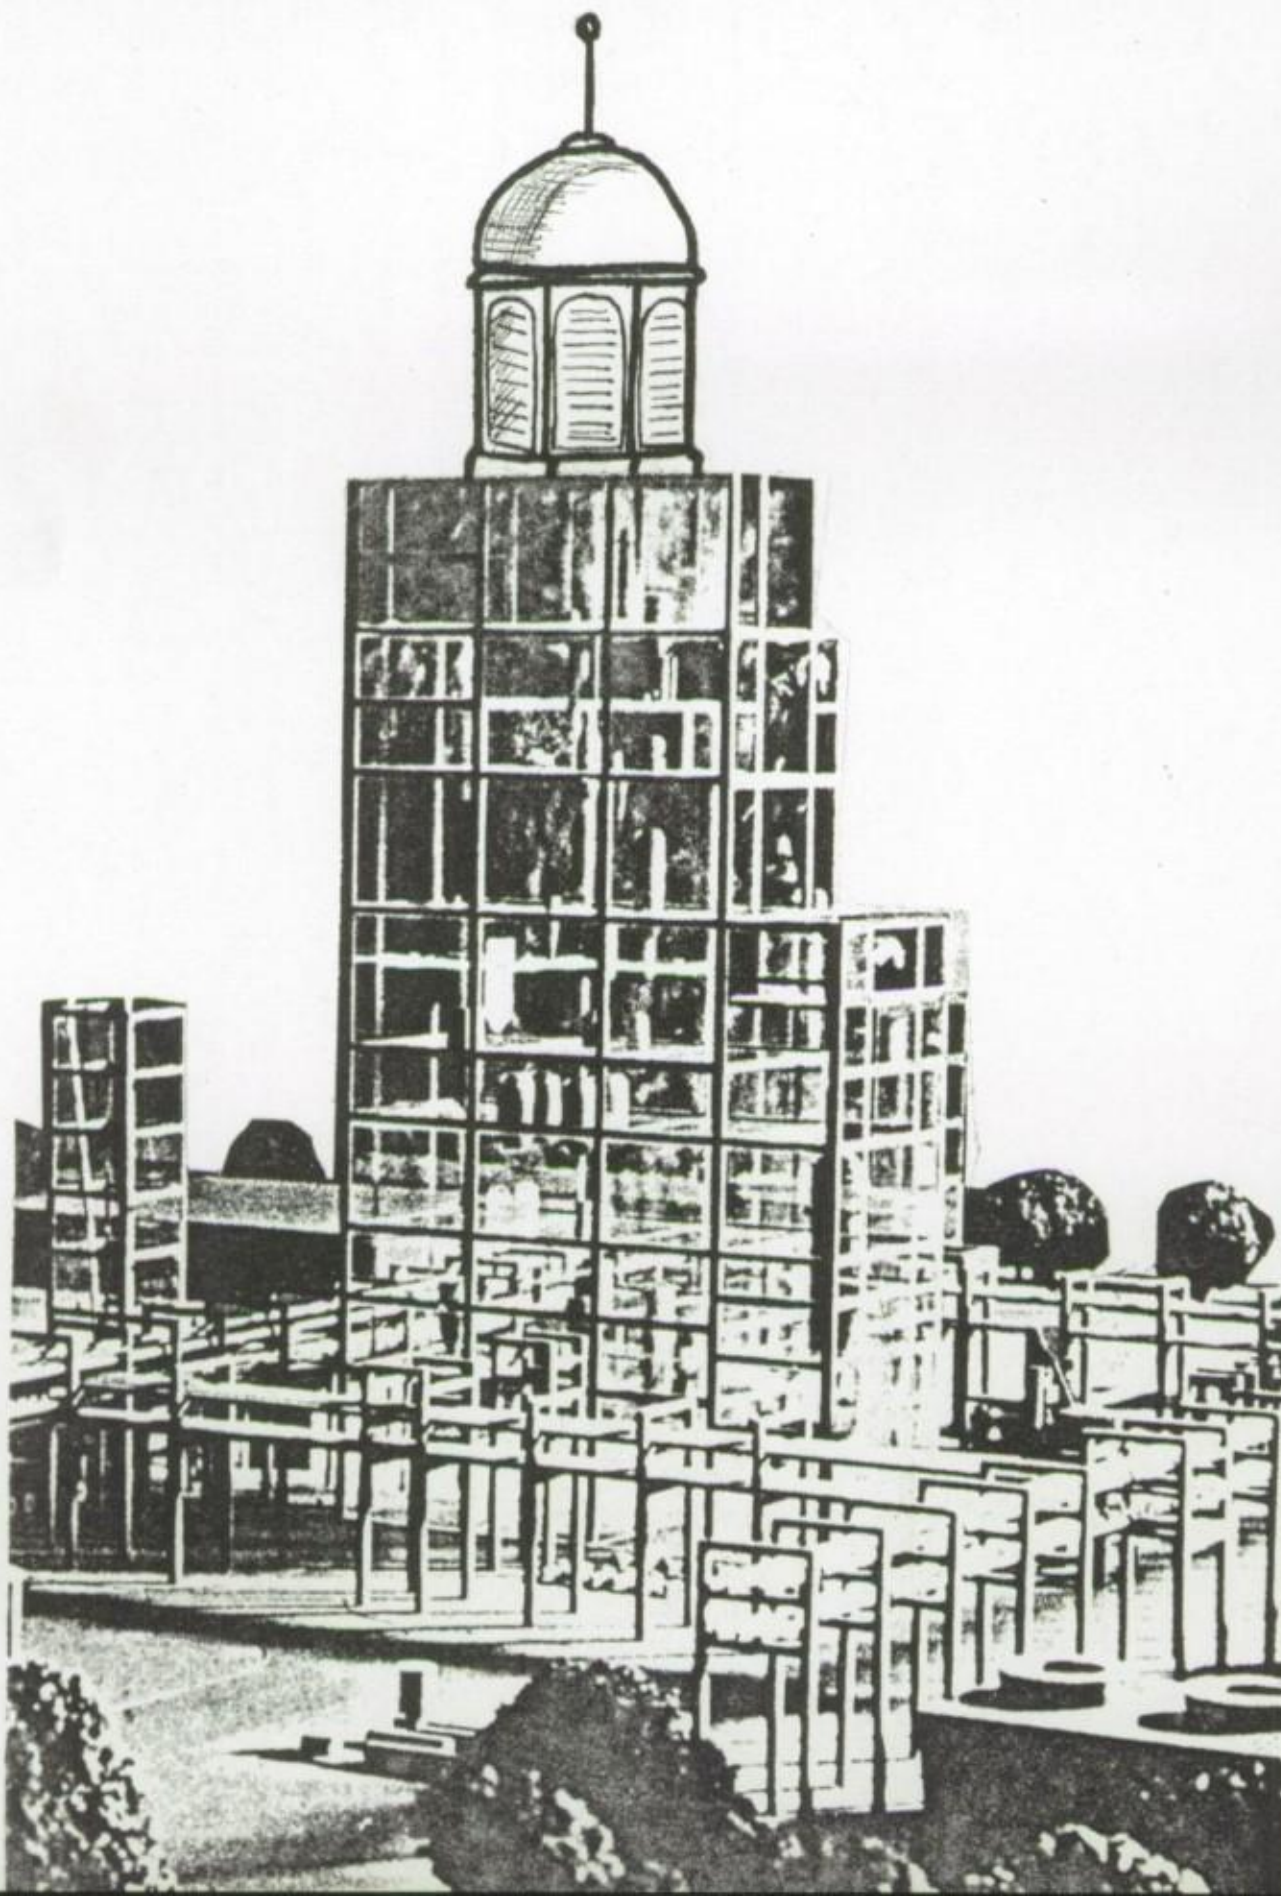

They range from the independence and energy of the seventh and eighth grade to the hidden talents of the emerging sixth grade.

How does our Junior High influence Moorestown Friends now?

They add color, excitement, and challenging ideas, as well as athletic ability, to the school community and provide the foundation on which the future of the school is based.

And lastly, and perhaps most importantly, **How will today's Junior High become tomorrow's Seniors?**

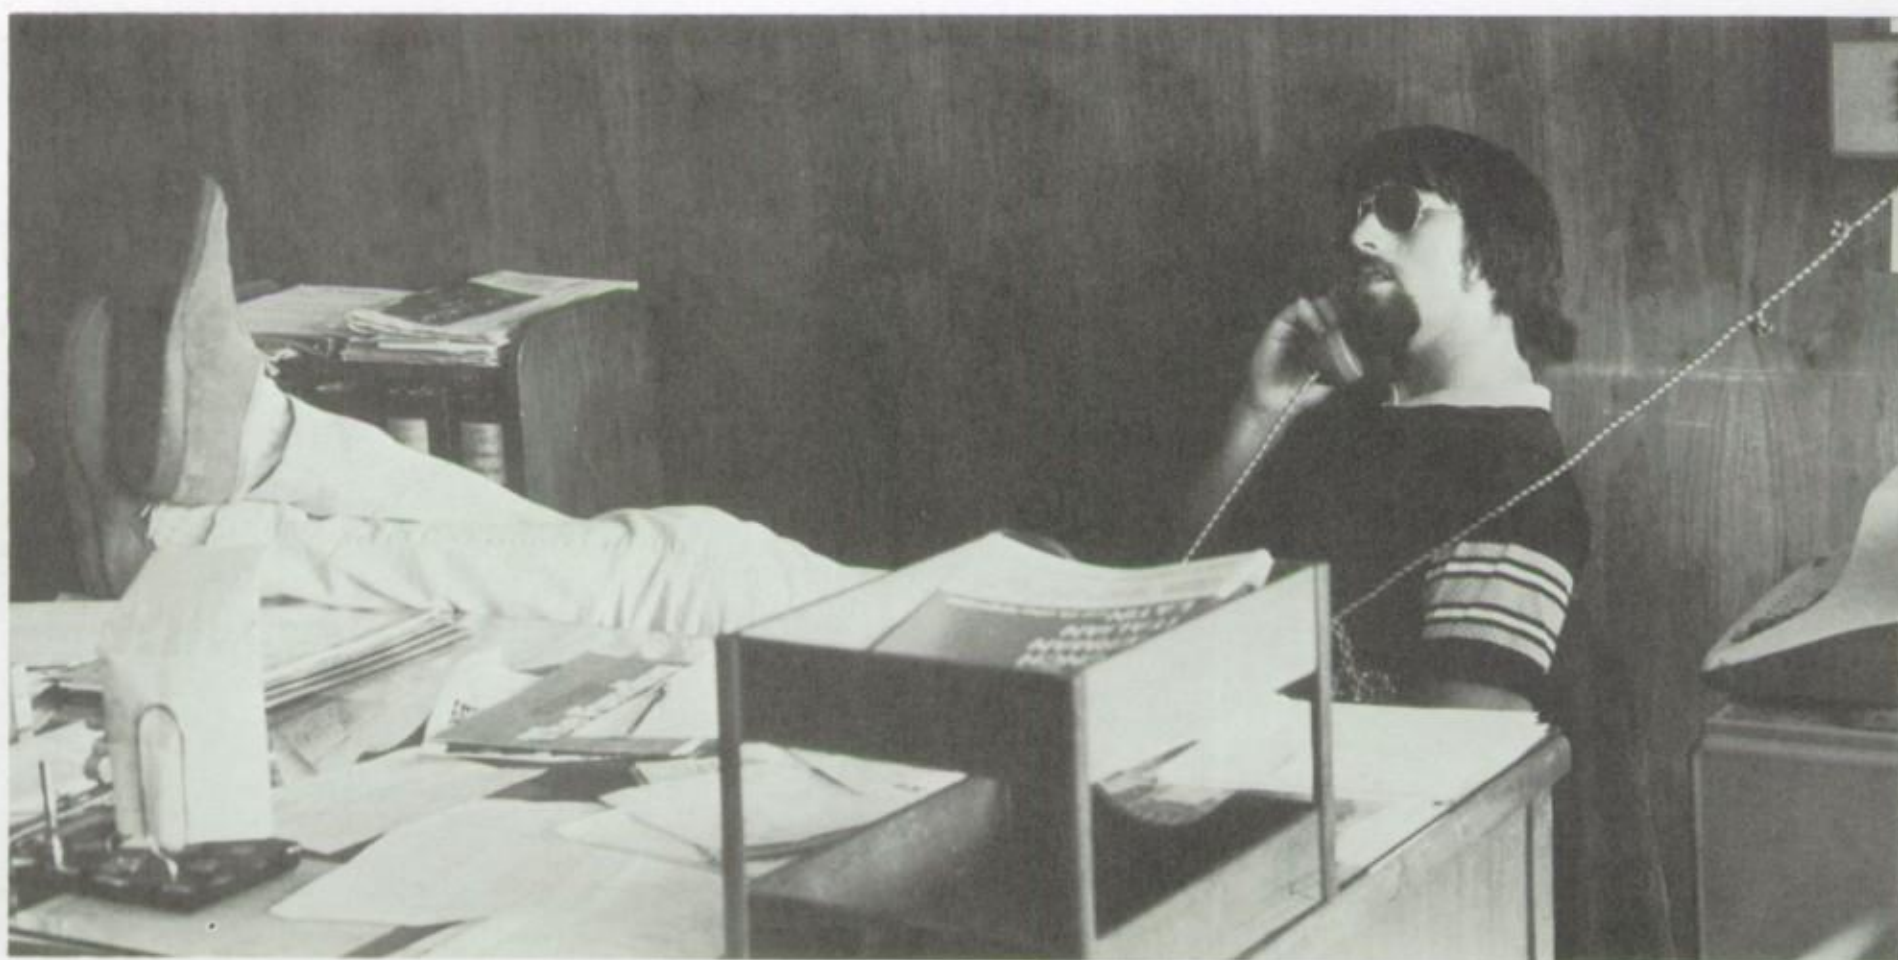

Their future is a bright one, and with all of their hidden and obvious qualities, they will make Moorestown Friends a more dynamic and challenging place.

13 wins, 5 losses, 1 tie — South Jersey Soccer Association Co-Champions

The 1977 Soccer Team was predominately a group of seniors who were as hardworking and coachable a team as any coach could have. They set a record of school wins — 13 — and won a co-league championship by superior effort. I'm sure they will remember 1977 as a very good season and so will I.

VARSITY HOCKEY

Left to right **Bottom row** — Robin Hockenbury, Dede Corcoran, Anne Evaul, **Floss Bruden**, Linda Smith, Kay Durbin, Kim MacColl, **Top row** — Katy Shelley, Nina Mannella, Carole Sims, Judy Hartman, Judy Berman.

8 wins, 2 losses, 2 ties

Players who realize the strengths and weaknesses in each other and who use this knowledge to their advantage will perform as a closely knit unit. That kind of performance is the reputation of hockey at M.F.S.

Jim,
 A good FRIEND
 THAT I CAN ALWAYS
 TALK TO. HAVE A GOOD
 SUMMER. SEE YOU NEXT YEAR
 SENIOR - Kenny

Since Christmas, the team has worked hard and they played with intelligence and a positive attitude, the reasons for our winning streak and our good record.

Drew Nolan

*gem,
 well we
 made it through
 the year and we only
 have 1 more. those about
 10 more pounds + we
 hard this summer so this next year
 you can contribute to the Varsity soccer
 team. gig*

GIRLS VARSITY BASKETBALL

Top row — Left to right — Kate Shelley, Mar Weeks, Judy Berman, **Nancy Quick**, Meg Weber, Val Lenhart, Marsha Fullard. Bottom row — Robin Hartzell, Kay Durbin, Kim MacColl, Caela Kratz, Mary Hall.

In my first year as coach of Moorestown Friends School Girls Basketball team I find the girls are not only athletic, but are also filled with enthusiasm, spirit, and determination.

Nancy Quick

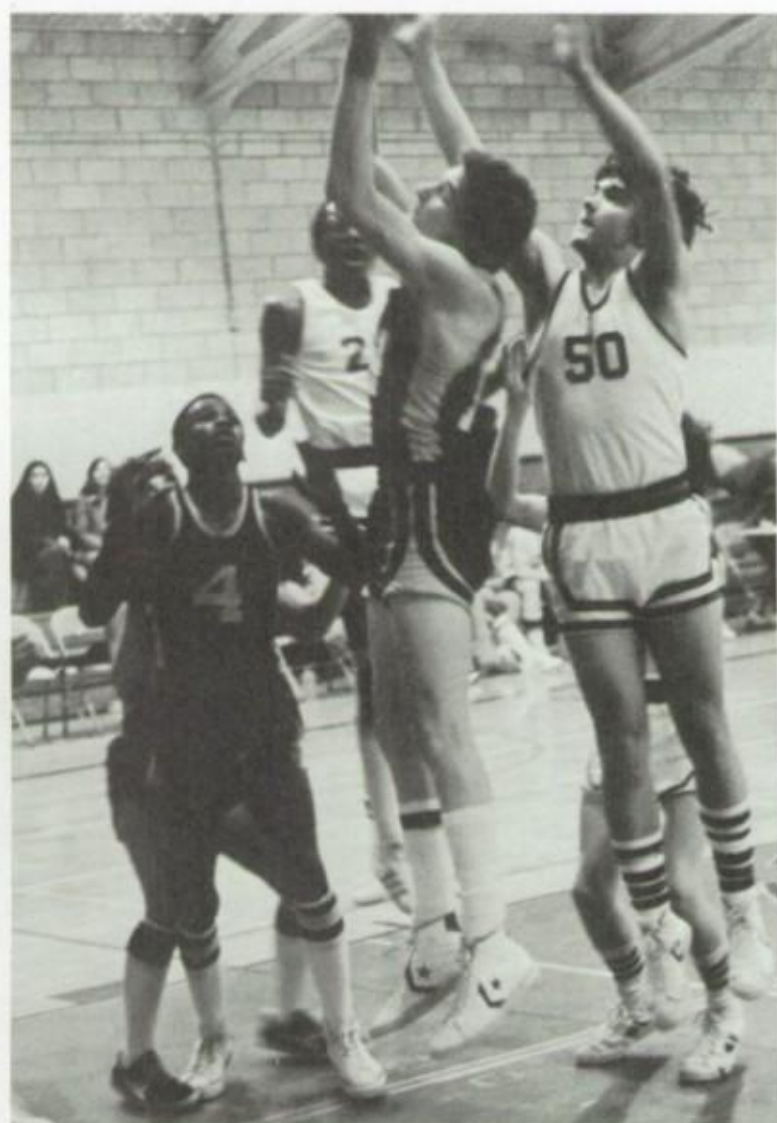

Jim,
 what can I
 say except that
 I'll see you
 over the
 Summer at

Don't do it!

One of the most satisfying aspects of coaching is to watch a young man develop from a novice to an experienced wrestler with the knowledge and skills to win. The goal of the M.F.S. wrestling program is to facilitate this development through team competition.

Denver C. Lightner

VARSITY LACROSSE

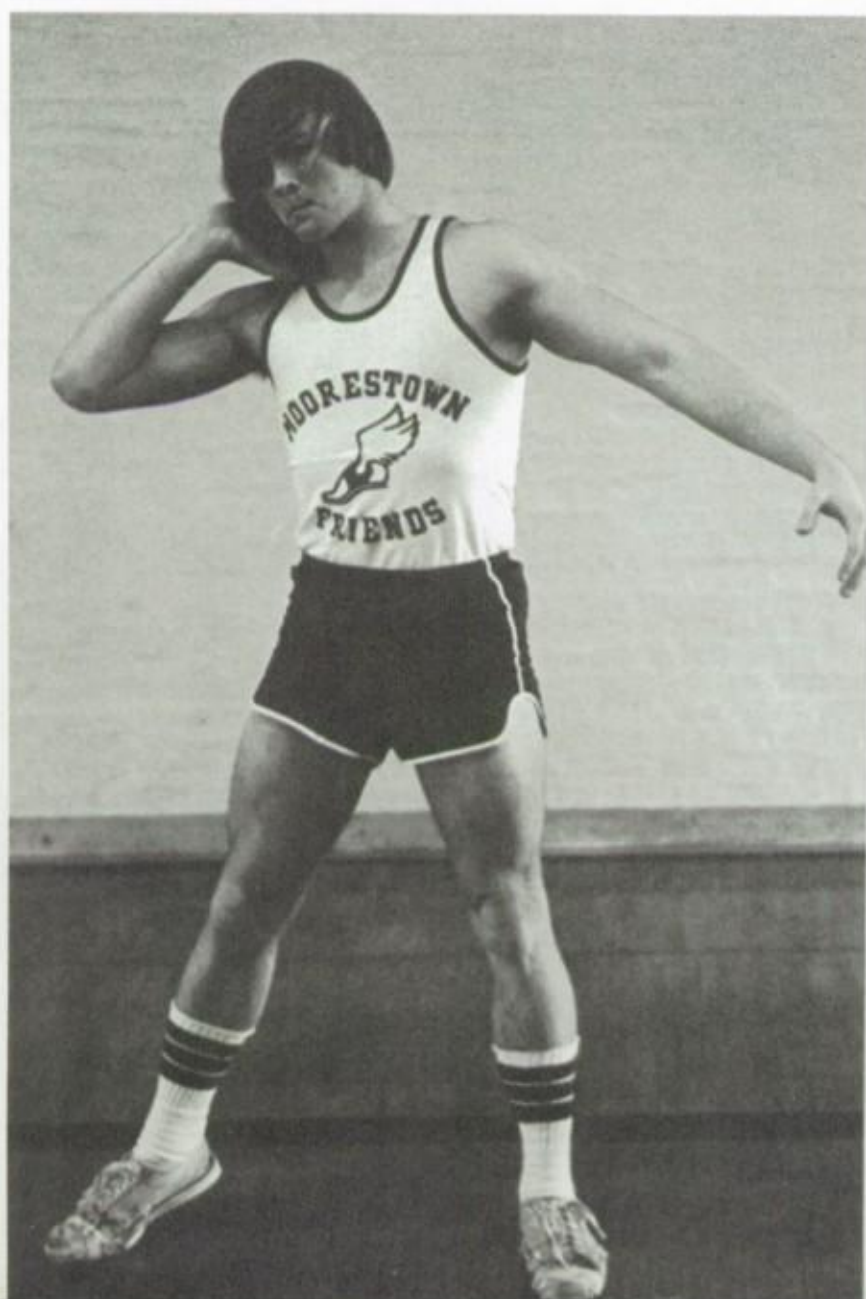

Four key players were lost this year, but hopefully we should be able to fill the positions. There will be a Junior Varsity team and possibly a sub or two which will be a new experience. The season should be good.

Every year is great for girls tennis, and in the future it will be greater!

John Cooper

BOYS VARSITY TENNIS

Standing — Neil Hartman, Dave Dorey, Brad Bryen, Scott Smith, Eric Stevenson, Gig Johnson, Kneeling — Skip Getz, Adam Dakin.

The tennis program at M.F.S. has gradually increased in popularity. Both boys and girls have junior varsity squads. Since tennis is an individual activity (or at most doubles), the calibre of the team can be greatly enhanced by two or three good players. The immediate future looks very good for both boys and girls tennis. The boys hope to repeat their state championship of 1977.

Dear Jimmie,
It's fun, that I was a Senior + Junior. That
gave me a chance to get to know a lot of nice
people. I remember really having fun with
you all and I'll never forget it.

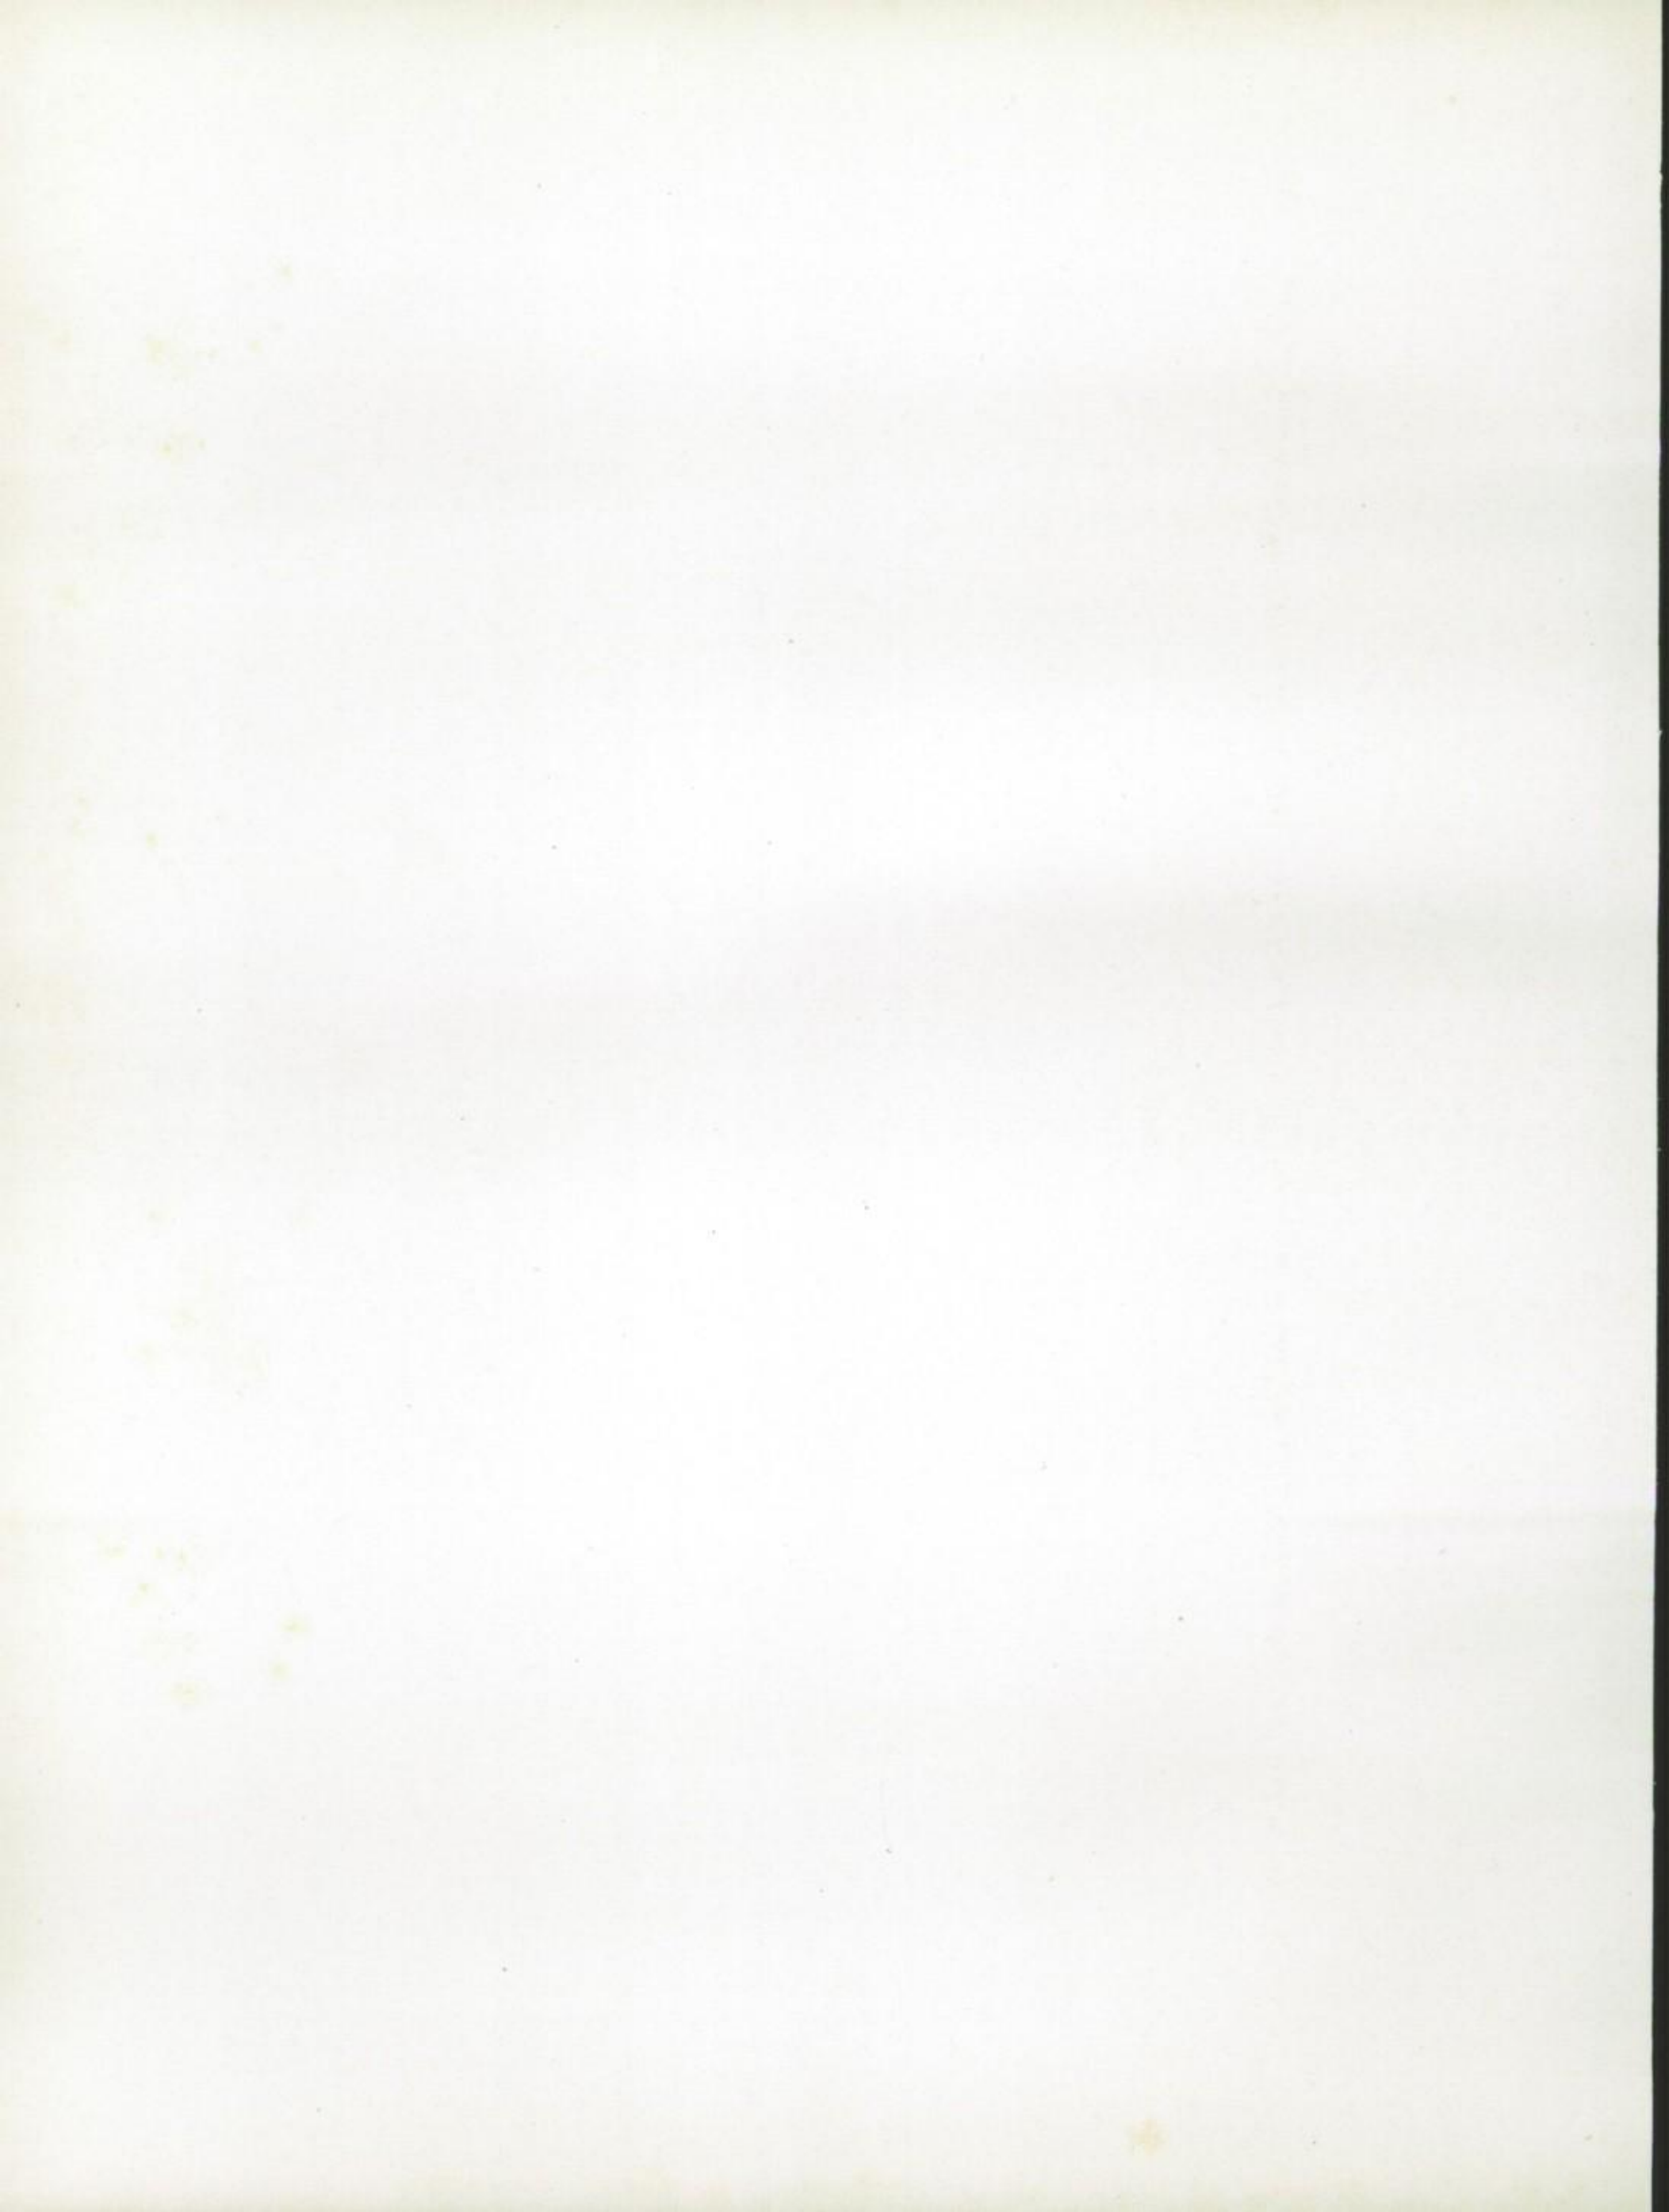

I hope you have a good senior year
at HFS!

Take care,

Love,

Renate

P.S. You have

Dear John & Mary
This year I
am turning 40
and I feel better
more like a
man. I hope
you and Neddie
(to be an engineer)
will be good luck
to me. I see you
in my future.
Love,
John

Dear Jimmy

Practice up your tennis and ping-pong and
maybe one day you'll be able to stand up to
me. It's been great being friends with you and
look forward to seeing you next year and maybe
even in the summer. Practice up your soccer and
I hope you come in good shape next year to practice.

Scott

Dear Jim,
I'm glad that
we'll both be on
year book next
year. We'll have a
better yearbook than
this one, with you, me,
Judy, Jacques, Gail, Marsha,
Miriam, etc. I'm looking
forward to next year. Maybe
we'll be in the same classes.
Sorry I've got such a easy
hand writing. Maybe we can
be wrestling Managers together
again.

See you next year.

Love,
Liz
